

Department of Veterans Affairs

Memorandum

Date: July 11, 2018

From: Chief, Engineering Service (138)

Subj: Nacci Construction Services, Inc.

To: Whom It May Concern

During my tenure at the Augusta VA Medical Center, Augusta, GA, I had the pleasure to work with Nacci Construction Services, Inc. (Nacci) on several projects.

When arriving at Augusta, I was confronted with numerous projects that had design issues or a lack of planning for the implementation of the construction. These projects would have been nightmares with a basic general contractor; fortunately, that was not the case. Nacci was awarded several of the projects, and worked with me to resolve the various design issues, as well as developing unique solutions to the sequencing of construction. These efforts helped minimize the negative impact the work had on our patients and our employees. The projects were also completed on-time and within budget.

I highly recommend Nacci to any of the facilities that require a quality team that takes ownership of their projects and works with the facility for a positive result.
